Instruction Manual

Congratulations on the purchase of your IRiS Qube!

The IRiS Qube has been designed specifically for people with special needs and should, if used in accordance with these guidelines, offer years of switching learning and fun!

The IRiS Qube offers endless opportunities to develop numerous skills including colour recognition, cause and effect, hand to eye co-ordination, gross and fine motor skills and many more.

The IRiS Qube is an IRiS Talker and can control any number of IRiS Listeners.

Put simply, it is operated by turning the Qube over.

Please ensure you read this Instruction Manual in full before operating the unit.

Heed all warnings on the product and within this manual. If upon receipt of this product, the user suspects that the product is defective, and/or requires service or repair due to malfunction or damage to the product, please contact the manufacturer immediately. Please be aware that improper installation and/or use or misuse of this product may result in injury, death, or adverse reactions to its user. This product is intended to be installed and/or use by a trained professional. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture, and intended uses of the product.

Features

- IRiS Wirefree Compatible
- Brightly Coloured Sides
- Clear Sleeves
- Rugged
- Integral Battery
- Easy to use
- Available in 2 sizes
- 2 Year Manufacturers Guarantee (Collect and Return)

Instruction Manual

Getting Started

1. Pair the Qube with any IRiS Listener
2. Simply turn the IRiS Qube over to use

Pairing to IRiS Listeners

This procedure is split into 2 sections, one for those who do not have an IRiS Master Pairer and for those who do.

Without an IRiS Master Pairer

Every IRiS Listener has a button on it called a pairing button. To get the IRiS Qube to work with a product, first decide which product you want to control then find the pairing button on that product and press it. You then need to turn the IRiS Qube over within 5 seconds. If correctly paired, the IRiS Listener will now change colour (if using a colour changing listener) to match that on the uppermost side of the Qube. If pairing with a non-colour changing listener, each side of the Qube will activate a different setting (sound, speed etc.) on the listener.

With an IRiS Master Pairer

To get the IRiS Qube to work with a product, first decide which unit you want to control and find its pairing button on the IRiS Master Pairer and press it. You then need to turn the IRiS Qube over within 5 seconds. If correctly paired, the IRiS Listener will now change colour (or other setting) to match that on the uppermost side of the Qube. The unit will now work with the IRiS Qube.

Cleaning and Maintenance

The unit should be cleaned with a damp soft cloth. A non-abrasive cleaning agent may be used for stubborn stains. Ensure no liquid enters the unit.

The unit has been designed for use by people with special needs however this does NOT mean it is unbreakable. You must ensure the unit is not stood upon, immersed in water, etc.

Troubleshooting the Qube

Q. The unit doesn't work.

A1. Is the unit paired to an IRiS Listener? If so, see A2

A2. Replace the batteries

A3. If the unit does not operate correctly after completing the above please contact us.
