Instruction Manual

Congratulations on the purchase of your Fibre Optic Floor Carpet!

Our Fibre optic Floor Carpet is made from safe plastic fibre optics and is available in a variety of sizes.

The Fibre Optic Floor Carpet has a 30mm termination allowing to be connected to any Lightsource, be it passive, interactive, IRIS or another format.

Using the Fibre Optic Floor Carpet is very easy. However you will need a Lightsource to use with this product.

For optimal results, please read and follow instructions carefully.

Please keep for future reference.

Heed all warnings on the product and within this manual. If upon receipt of this product, the user suspects that the product is defective, and/or requires service or repair due to malfunction or damage to the product, please contact the manufacturer immediately. Please be aware that improper installation and/or use or misuse of this product may result in injury, death, or adverse reactions to its user. This product is intended to be installed and/or use by a trained professional. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture, and intended uses of the product.

Getting Started

1. Unroll the Fibre Optic Carpet and lay on a flat surface.
2. Simply locate the termination into a fibre optic Lightsource collar and secure.
3. Turn on the Lightsource.

Cleaning and Maintenance

The Fibre Optic Carpet can be cleaned with a vacuum cleaner. This process will also help lift the individual optics into a more vertical position. We do not recommend using a carpet washer. Any spillages can be cleaned up with a damp cloth, and the dried thoroughly with a dry towel.

Troubleshooting

Q. No light is seen from the Fibre Optic Carpet.

A1. Is it connected to a Fibre Optic Lightsource? If so, see A2

A2. Is the Fibre Optic Lightsource switched on? If so, see A3

A3. If the Fibre Optic Lightsource is interactive/IRiS, has it been activated? If so, see A4

A4. Is the lamp operable in the Fibre Optic Lightsource? If so, see A5

A5. Please contact us.
