Instruction Manual

Congratulations on the purchase of your Interactive LED Fibre Optic Hand Carpet!

The Interactive LED Hand Carpet has been designed specifically for people with special needs and should, if used in accordance with these guidelines, offer years of switching learning fun !

The Interactive LED Hand Carpet offers endless opportunities to develop numerous skills including colour recognition, cause and effect, and many more. It uses the brightest LED currently available (at time of print) and produces multiple shades of colour when used in calming mode.

Please ensure you read this Instruction Manual in full before operating the unit.

EXPERIA GENERAL WARNINGS AND CAUTIONS

PLEASE READ THE INSTRUCTIONS WITHIN THIS MANUAL CAREFULLY BEFORE INSTALLING OR OPERATING THIS PRODUCT. Heed all warnings on the product and within this manual. If upon receipt of this product, the user suspects that the product is defective, and/or requires service or repair due to malfunction or damage to the product, please contact the manufacturer immediately. Please be aware that improper installation and/or use or misuse of this product may result in injury, death, or adverse reactions to its user. This product is intended to be installed and/or use by a trained professional. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture, and intended uses of the product.

The unit has been designed for use by people with special needs however this does NOT mean it is unbreakable.

-) Low Maintenance
-) Durable
-) Easy to use
-) 3 Years Manufacturers Guarantee (Return to base)

Pack Contents

1	x	Interactive LED Hand Carpet
1	x	Transformer
1	x	Instruction Manual

Instruction Manual

Getting Started

1. It is recommended that the Interactive LED Hand Carpet is fitted by a competent person, by following the installation guide before use.
2. Connect the 3 pin XLR power connector from the transformer, to the power input located on the bottom left of the unit.
3. Connect the mains transformer to a suitable mains outlet.
4. Switch on the power.
5. The Fibre Optic Carpet will light up and scroll through the colours.
6. Now the unit will slowly colour change through the colours.
7. When a hand is placed on one of the UV acrylic hands on the front of the carpet, the fibre optics will change to that colour.
8. Touch another colour and the unit will then change to that colour.
9. When no hand is touched for approximately 1 minute, the Interactive LED Hand Carpet will begin to colour change automatically again.

General Cleaning

The carpet on the Interactive LED Hand Carpet can be cleaned with a vacuum clean hand attachment. This will help keep the fibre from laying flat within the carpet pile.

The unit has been designed for use by people with special needs however this does NOT mean it is unbreakable.

Troubleshooting the Interactive LED Hand Carpet

Q. The unit doesn't light up.

A1. Is it switched on? If so,

A2. Has the unit scrolled through its colours ? If so,

A3. Have you touched one of the 4 coloured hands? If so,

A4. When you touch one of the coloured hands, can you hear a click from the unit? if so,

A5. Please contact us for further assistance.
