## Operating Instructions

Switching on the Deluxe Soundstar

1. Plug in and switch on at the mains supply. The Deluxe Soundstar will now self-check.
2. Once the self-check has occurred the Deluxe Soundstar goes into sleep mode.
3. Press the control panel on-off button to wake up the Deluxe Soundstar which will now boot-up.
4. Once the Deluxe Soundstar displays the mode 'Ring 1' it is ready for use.
5. When the microphone is not connected the unit will run through the selected mode automatically.
6. To use the Deluxe Soundstar with the microphone, simply connect the jack plug to the microphone socket on the front panel. Every mode will now be sound responsive.

## Deluxe Soundstar modes of operation

The modes of operation listed below are variably affected by adjusting the speed and fade settings. If a mode selected isn't working well for the user then make some changes and try again.

The LED colour can be user selected by simply touching the colour wheel and watching the circle of lit LEDs in the middle of the touch screen area until the desired colour has been achieved.

Some of the modes can behave differently if the sensitivity is turned up too much, turn it down a little to correct this.
