3+ years

**experia**  
innovation in every sense

The Calming LED Light Spreader has been designed specifically for people with special needs and should, if used in accordance with these guidelines, offer years of theming fun!

The Calming LED Light Spreader offers calming, relaxation and de-escalation opportunities by flooding a room with colour.

It uses the brightest LED currently available (at time of print) and produces multiple shades of colors when used in calming mode.

Put simply, this unit is plug and play.

**Please ensure you read and follow these Instructions carefully before installing or operating the unit. Please keep this manual for future reference.**

Heed all warnings on the product and within this manual. If upon receipt of this product, the user suspects that the product is defective, and/or requires service or repair due to malfunction or damage to the product, please contact the manufacturer immediately. Please be aware that improper installation and/or use or misuse of this product may result in injury, death, or adverse reactions to its user. This product is intended to be installed and/or use by a trained professional. Failure to comply with these precautions or with specific warnings elsewhere in this manual violates safety standards of design, manufacture, and intended uses of the product.

## Pack contents

1 x Calming LED Light Spreader  
1 x Low Voltage Transformer

## Getting Started

1. Place the Calming LED Light Spreader on a flat solid floor or mount securely on a wall.
2. Connect the round XLR connector (silver connector with grey cable) from the Low Voltage transformer to the socket on the back of the unit.

3. Connect the standard mains plug to a mains outlet.
4. The unit will now illuminate and will scroll through the many colors.

**Please note: Only use the transformer supplied. Use of a different transformer may result in damage to the product and void the warranty. For warranty information please see separate warranty card supplied.**

## Cleaning and Maintenance

The unit should be cleaned with a damp soft cloth. A non abrasive cleaning agent may be used for stubborn stains. Ensure no liquid enters the base of the unit.

The unit has been designed for use by people with special needs, however this does NOT mean it is unbreakable. You must ensure the unit is not hit with anything and that no one pulls or pushes the unit.

## Lamp Change

Not required! It uses an LED which lasts for years!

## Troubleshooting

Q. The unit doesn't work.

A1. Is it switched on? If so,

A2. Have the Fiber optics been connected to the lightsource? If so,

A3. Please contact us for further assistance.
